Electric rear seat adjustment.
The backrest angle can be changed up to 108°
Enjoy the boss button
Adjust the passenger seat with one button
Experience more space in the back row

ECO Mode

Soft power response
Economical, energy-saving and environmentally friendly

Comfort Mode

Smooth power output
Economical and comfortable

Snow Mode

Smooth power output
Easy and stable handling

Sport Mode

Dynamic power response
Fully leveraged performance

Sturdy Body on Frame

54.1% 210~550MPa high-strength steel
The bending stiffness of the body reached 6100N/mm
The twisting stiffness of the body reached 8100N/mm, coupled with an anti-roll bar
To ensure good anti-corrosion performance of the body, 91.7% galvanized sheets.
More than 6000 welding points to ensure sufficient connection strength and rigidity
Improving the safety of the body

Excellent Terrain Passing Ability
